Dreissenid Mussel Prevention Across the Pacific Northwest

20th International Conference on Aquatic Invasive Species

Fort Lauderdale, Florida

Stephen Phillips
Senior Program Manager
PSMFC
Portland, Oregon

Authorized by Congress in 1947, the Pacific States Marine Fisheries Commission (PSMFC) is one of three interstate commissions dedicated to resolving fishery issues.

Member States: California, Oregon, Washington, Idaho, and Alaska

Aquatic Invasive Species Program Since 1999

Main Species of Concern: Zebra and Quagga Mussels

PSMFC Staff: GIS/Database Manager: Van Hare; AA Susan Anderson **Contractors:** Lisa A. DeBruyckere, Debra Davis, Leah Elwell and Robyn Draheim;

Water samples positive for invasive mussel larvae in Tiber Reservoir

Water samples from Tiber Reservoir east of Shelby have tested positive for the larvae of aquatic invasive mussels, with similar tests from Canyon Ferry Reservoir near Helena showing "suspect" or inconclusive results, according to officials at Montana Fish, Wildlife and Parks.

FWP, along with other state and federal agencies and the Montana Invasive Species Advisory Council (MISAC), are now working to determine whether adult mussels are present in Tiber Reservoir and to get further test results on Canyon Ferry.

MONTANA RESPONSE DREISSENID RESPONSE TIME LINE

November 2016: Governor Bullock forms rapid response team (ICS) to address aquatic invasive species

May 2017: MT Legislature -- \$6 million per year... for FWP for AIS (~6x increase)

fee for hydro-electric facilities (\$ 3.7 million a year in funding)

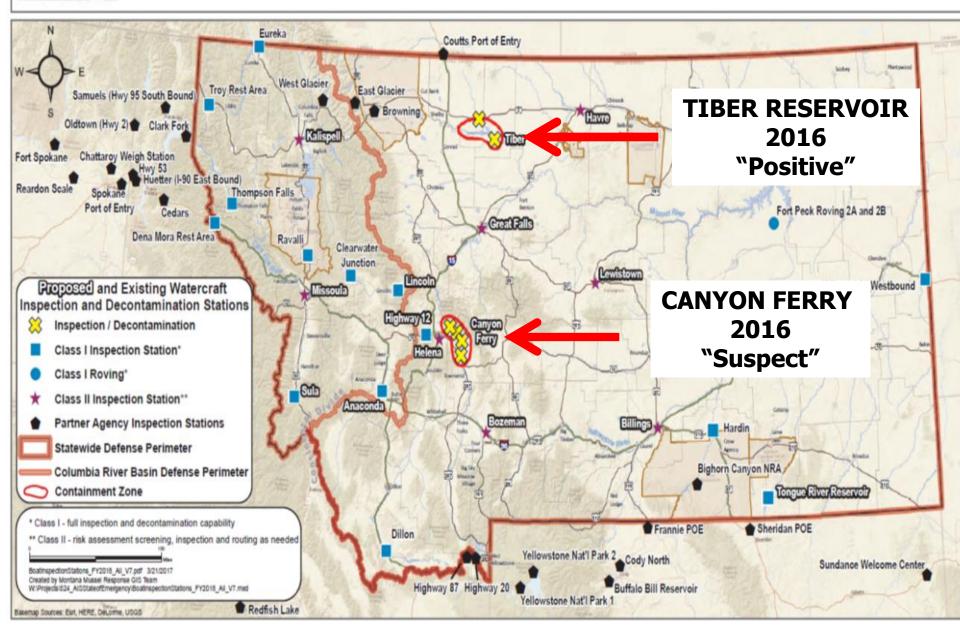

Through October 20, 2017: Good News -- Dogs, Divers and Plankton Samples **all negative**

Divers with the U.S. Fish & Wildlife Service and Montana FWP prepare to dive at Tiber Dam to look for adult zebra and/or quagga mussels, August 7, 2017.

Dreissenid Monitoring in the CRB

• Why increased monitoring \$\$\$\$ are needed NOW: We conclude that the current level of effort expended does not provide for high-probability detection of larval dreissenids or other planktonic taxa when they are rare in these reservoirs. Timothy D. Counihan & Stephen M. Bollens. Environ Monit Assess (2017) 189:98

What Next -- 2018

(FALL 2017 PLANNING)

Watercraft Inspection: Review the year ...programmatic adjustments, lessons learned, **Monitoring:**

Database: Data standardization, CRB? Westwide? Federal Mussel Initiative -- BOR....

Review Strategy-- Who, Where, When, How much is enough, what are we missing, eDNA pros, cons.

2017 water quality data collection (ODFW, WDFW) – incorporate new data

Rapid Response:

Opportunity, If!: If Adults, containable, isolated ..we must trywith ESA listed species "we" (states) will need to consult with feds ...there may be a "take" or impact to critical habitat.

PSMFC just entered into a cooperative agreement with USFWS (PDX) for ESA Section 7 consultation (BA) assistance

Thank You
